PROJECTS

Drug Dispensing Tool Website 🌐

This project, aims to simplify medical management. Key features include personalized profiles, an interactive drug database, customizable reminders, and secure refill ordering. Doctors can see their patients and dispense drugs to them as required. An admin can oversee all those transactions and all their users in the system.

Car Rental Website 🌐

An intuitive car rental website facilitating seamless vehicle reservations. Implemented user-friendly features including a wide selection of vehicles, transparent pricing, convenient pickup/drop-off locations, and 24/7 customer support. Designed to optimize the rental process for customers, ensuring a stress-free and satisfying experience.
